

Whether you're waiting for the rain to stop, or fervently wishing it would start, try your hand at our version of Water Bingo to while away the time. Explore your watershed, learn about freshwater species (no touching!) and check off items as you see them. Don't forget to sign the Count for Nature pledge at wwf.ca/countfornature, and then share on social when you've filled your Water Bingo board (#CountForNature). Good luck!

W A T E R
